August 29, 2017

Dear WAC Members and Friends,

As of this writing, many of you have seen the Total Solar Eclipse. Some went the distance to experience 'total obscuration'; others stayed closer to home and observed doily-like, crescent moon-shaped leaf shadows, cooler temps, and the non-glare of 91% eclipsing. Either way, it was a sight to behold! We shall probably remember August 21, 2017 for the rest of our lives. At our next WAC meeting, if time permits, maybe some of you would be willing to share what you saw and felt, etc.

Meanwhile, at our July meeting, we had a totally wonderful evening as the Polka Dots regaled us with their zippy, catchy, FUN music! They certainly took us down memory lane as they played *Lollipop* complete with personal sound effects. *Besame Mucho* was a new favorite for me, as was the *Johnson Rag*. There was definitely something for everyone. Next time, please play longer! Every piece was flowing, thoroughly delightful, and totally enjoyable!!! THANK YOU, Polka Dots!!! You were great in every way!

Our next WAC meeting will be held on the 2nd Monday of September due to Labor Day falling on the week before. Yes, our meeting will be on Monday, September 11th, aka 9/11.

We are very pleased to announce that our very own famous KEVIN CHRISTENSEN (No that is NOT infamous), will be performing for us with his clarinetist Pamela along with his percussionist Mark. It will definitely be an evening to remember! Be sure to invite your friends and neighbors for this musical extravaganza.

Also at our next meeting, we will briefly spotlight two of our newest members: Carolyn Felder and Alice Cipollini. WELCOME TO WAC, Alice and Carolyn!!! We're so glad that you found us.

Thank you to those of you that have taken the time to write your mini-bios. (YOU shall be spotlighted soon!) **PLEASE** keep them coming! We love guessing who it might be. Last month no one had a clue as to who the entomologist's daughter might be...she even had cyanide killing jars in her very-first-ever-so-carefully-chosen purse in the 5th grade...and on it went! Hats off to Shireen Mooers!!! (We have something special planned for Shireen in keeping with her bio...so do come, and be ready to clap loudly!)

FYI: We have lost more than 129 minutes of daylight since Summer Solstice on June 21st, for all of you eager beavers excited about winter coming. Or, putting it in a more positive light [Pun intended], we have gained more than 129 minutes of darkness (**as in Darth Vader and outer darkness are coming!** – *comment added by editing staff*) since Summer Solstice. Doesn't that spin on it make you feel totally better now??? Until then, enjoy the last of summer and the cooler days.

Warmly!!!

Jenny Robinson
